with the Patentee, weare now prepared to furnish to order the above Mills, of any size, burrs and boits. The Mill is simple in its construction, having very little machinery occupying but little space, and warranted to do more work with the same amout of power, and make as good a quality of flour, as any Mill now manufactured. Proprietors of Saw Mills, especially those that use steam, would find it to their advantage to purchase one of these Mills, for the purpose of doing custom grinding—either wheat, corn or other grain. The Mill will be sold withor without the boit. The principle of the Mill is equally applicable to the construction of large Merchant Mills, and persons about to build, would do well to call and examine?
